

COMET BOOSTER CLUB

Business Opportunities

Catonsville High School is undergoing some exciting changes and we need your support! A new turf field was recently installed at Comet Park Stadium. This new field is state-of-the-art and will provide our teams with the best the area has to offer!

This will also allow Catonsville High School's Comet Park to host a variety of county, regional and state events in addition to providing a premium playing field for all of our local Recreation & Park programs including football, lacrosse, field hockey, soccer and track. Would you like to promote your business, products and services to this audience and be a part of this historic project?

We are currently offering naming rights for the following:

Stadium Name

Provides your business with the opportunity to have your name affiliated with local, regional, and state events being promoted and held at Comet Park.

Concession Stand

In addition to being visible from the new bleachers, the concession stand is utilized by many fans and their families throughout the year.

Scoreboard

Visible from the stands, virtually every game or event, held at the stadium, is monitored via the scoreboard. What a great way to get your company noticed!

Press Box

The new Press Box, located in the stands, will be visible during filming of local events and serves as the anchor of the new stadium concept.

Track

Highly visible, the track name can provide you with visibility to all fans before, during and after local events.

Banners

For small businesses, 4x6 Banners will be available and remain in place, year round, on the fencing across from the stands.
